LinkedIn GitHub

SUMMARY

Passionate and detail-oriented aspiring software developer with strong interest in web development, programming, and technology. Experienced in building responsive websites and clone projects using HTML, CSS, JavaScript, and Python. Eager to learn new technologies, solve real-world problems, and contribute to innovative software projects.

HIGHLIGHTS

- Developed responsive web applications and website clones.
- Strong foundation in HTML, CSS, JavaScript, and Python.
- Familiar with Git and GitHub version control.
- Quick learner with excellent problem-solving skills.
- Experience in creating user-friendly and mobile-responsive interfaces.
- Passionate about technology and continuous learning.

EXPERIENCE

AI Engineer — XYZ

2023 - 2024 • Kathmandu

- Improved application performance by 30% through code optimization.
- Successfully delivered projects before deadlines.
- Automated repetitive tasks, reducing manual effort by 50%.
- Resolved critical bugs, improving system stability and user satisfaction.
- Received recognition for outstanding teamwork and problem-solving skills.

ACHIEVEMENTS

Developed multiple web development projects and website clones. Built a Library Management System with book and member management features. Consistently improved programming skills through hands-on

SKILLS

- Python
- Java
- HTML
- CSS
- JavaScript
- Bootstrap
- Git
- GitHub
- MySQL
- VS Code
- Responsive Web Design
- Object-Oriented Programming (OOP)
- Data Structures and Algorithms (DSA)
- Problem Solving
- Linux (Basic)

EDUCATION

BSc Computer Science with AI — Softwarica College of IT and E- Commerece

2022 - 2024 • 3.24

Passionate about software development and continuous learning. Currently exploring web development, cloud computing, and AI technologies. Available for internships, freelance projects, or entry-level opportunities. Strong interest in open-source contributions and collaborative projects.

CERTIFICATIONS

- Python Programming Certification

projects.
Active contributor to personal GitHub projects.
Completed academic and self-learning projects in Python and Java.
Participated in coding and technology-related learning activities.
Demonstrated strong problem-solving and analytical skills through project development.

PROJECTS

Library Management System

HTML, CSS, JavaScript, and React

Developed a Library Management System to manage books, members, book issuing, and returns efficiently. Implemented features such as book search, inventory management, member records, issue/return tracking, and fine calculation using programming concepts and database management.
